

## Bring Your Own Device (BYOD) Minimum Specifications – Grades 4 - 8

### Minimum Requirements:

Laptops must meet or exceed the following:

### Hardware Requirements

- **Screen size:** 13" minimum
- **Memory:** 8 GB recommended (4 GB minimum)
- **Hard Drive:** 120GB or larger
- **Processor:** Intel Core i7 or higher, AMD FX4300 or higher
- **Wi-Fi Connectivity:** 802.11 ac or ax
- **Battery:** must hold charge for 5 hours
- **Camera**
- **Graphics Card**

### Software Requirements

- **Operating System:** Windows 10, 11 or Max OSx 10.14 Mojave
- **Antivirus Software:** Sophos
- **Security Updates:** Students are responsible for their devices and keeping them updated with the latest security updates and patches, this is part of being a good digital citizen
- **Browsers:**
  1. Latest version of Chrome
  2. Latest version of Firefox (Apple only)

### Other Considerations

- A protective case is highly recommended.
- Laptop weight and size (carried all day to classes)
- TES Policy will not cover lost, stolen, or damaged devices brought from home. Is there a warranty if the device is damaged? Is it covered under homeowner's insurance?
- Highly recommend tech support and accident coverage by manufacturer.
- A list of required and suggested applications will be provided to students that must be downloaded on their laptop.
- Students will be able to access/download their Office365 student licensed software to this and four other devices for use.
